Main Sections

Business World Halls 1-2-3

In Business World Halls, software and equipment companies will participate to introduce their corporate solutions to different industries. The `Business World`, a platform at which the interest in technology of the small and medium size companies turns into investments, will continue to be the `silent` section.

Consumer Electronics Halls 4-5-6

The section Consumer Electronics, to be established for the first time in 2009 will be attended by participating companies, who want to make distribution agreements. This section will especially host wholesalers and distributors from Anatolia and exhibit new technologies for end users along with their products.

Digital Life Hall 7

Technological tools related to daily life, enabling the interoperation of business and social life will be exhibited in the main section of Digital Life. The section, at which new digital content and services will be introduced, is expected to be participated by companies showing their consumer related services.

Broadcast Cable & Satellite-a CeBIT Event Salon 8-9-10

The fair, which has been organized for 12 years and which is a member of the global CeBIT family, is the most important platform of Eurasia, introducing content and products related to satellite communication, broadcasting, cable and TV industries. This exhibition will be organized under the same roof of CeBIT Bilişim Eurasia and provide the platform for trade connections between industries. For Detailed Information: www.cebit-bcs.com
